bathroom furniture

blissful comfort

According to current trends, the bathroom is no longer just a place for a quick morning and evening toilet, but it rather becomes a zone of blissful relaxation where we spend much more time than before. We associate today's bathroom with soothing baths and beauty treatments, even a SPA. We tend to become an increasingly busy society and after a long day we feel the need to relax in an aesthetically pleasing, elegant and functional bathroom.

Devo has been present on the European market for about 30 years as a bathroom furniture manufacturer, being a long-standing supplier to mainly globally-operating companies. Our aim since the beginning of operations was to create products of the highest quality, innovativeness and unique design. For many years we have related with renowned European material manufacturers such as: Egger, Kronospan, Pfleiderer, Blum, Camar, Ica, Renolit, Hornschuch. Devo's key strengths are extraordinary durability of products, a vast range of colours and a unique design which all earn recognition on many trade shows, both Polish and European. Our clients have created and keep on creating exceptional bathroom projects with our involvement for years.

Current offer in this catalog consists of 23 bathroom furniture lines with timeless attributes, designed to meet the individual preferences of most demanding Customers. You will find here a wide variety of styles and sizes of furniture enabling to match perfectly tastes and spatial possibilities of our Customers.

Devo, as one of the oldest Polish bathroom furniture manufactures, earned reputation of stable and innovative company becoming a trustworthy business partner that ensures partnership on the highest possible level, which is based on reliability, trust and most importantly exceptional and durable products.

We are looking forward to cooperating with you.

leading company

Devo is a leading Polish manufacturer of bathroom furniture. It has been operating since 1990 while developing and improving its products.

Our modern and unique collections meet the needs of customers with the most sophisticated tastes. We join the ranks of world leaders and suggest a new direction in bathroom furniture design.

30 years on the market

We have implemented Total Quality Management already in the early 1990s. In March 2002, we introduced an ISO 9001:2000 based Quality Management System. Devo's production control and management system is computerised while the manufacturing process is performed on highly automated machines, which ensures the repeatability of products.

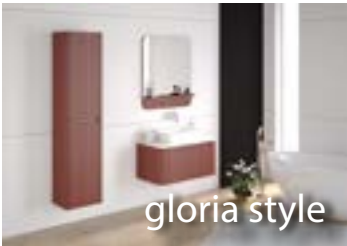

Bathroom furniture is made from wood, wood-based panels and moisture-resistant materials. They are finished with top quality furniture laminates in a wide range of colours and wood-effect patterns.

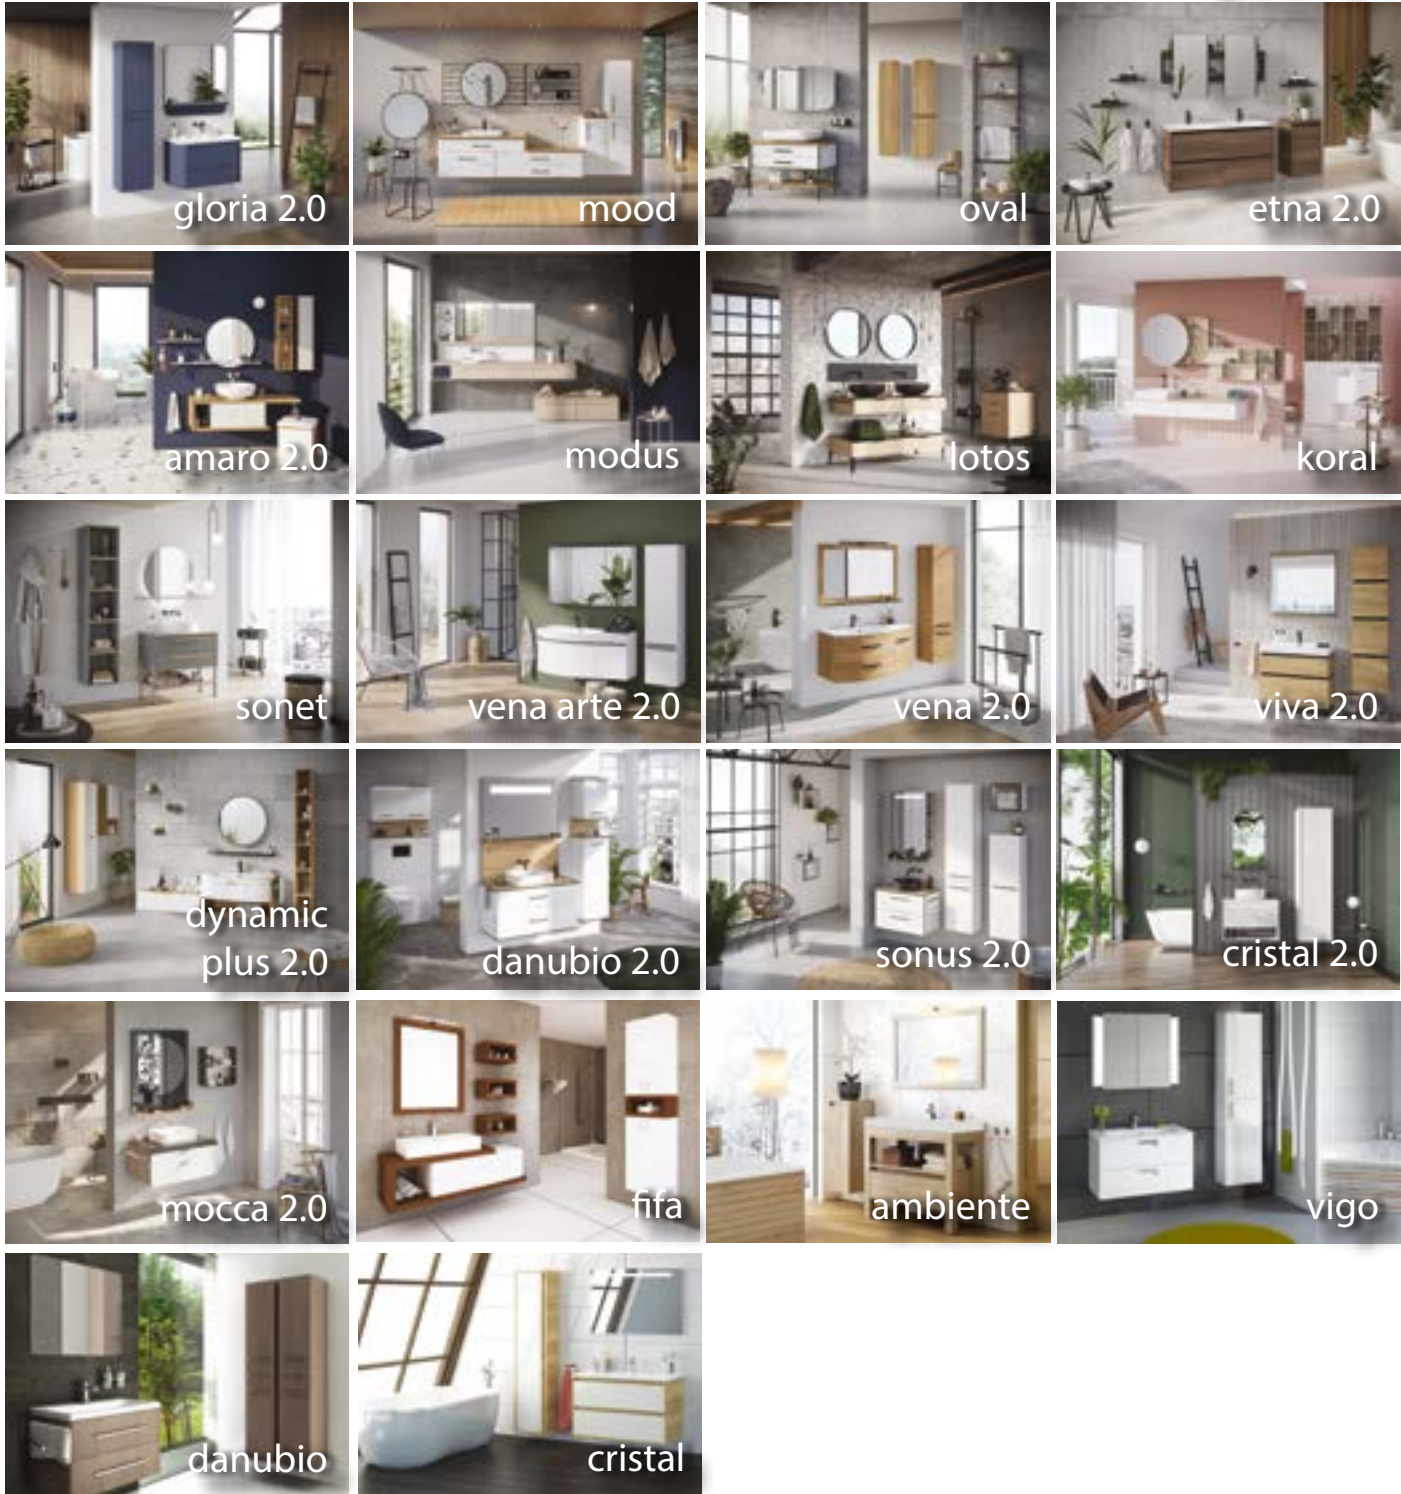

Devo uses materials and accessories from renowned manufacturers, including furniture fittings from the Austrian company Blum which declares a lifetime guarantee on its products.

and variants

A modern bathroom vanity setup. The vanity features a white rectangular sink with a black faucet, set into a light-colored wooden countertop. Below the countertop are light gray cabinets with black horizontal handles. To the right of the sink is a wooden shelf holding a stack of white towels. Above the sink is a large round mirror and a black metal grid shelf. The grid shelf holds a small potted plant, a small round mirror, and a black container with brushes. To the right of the vanity is a tall white cabinet with two doors and a wooden top. The image includes several circular markers and lines indicating specific points of interest.

bathroom furniture collection **gloria style**

Gloria Style is the sister collection of the Gloria 2.0 line. They share rounded curves referencing the early modern style and fluted fronts. However, in this version they are irregular, which makes the whole collection visually delicate and subtly light. A cabinet with a countertop washbasin adds elegance to the entire line, which is further emphasized by high-quality finishing materials. The Gloria Style collection will appeal to lovers of sophisticated and unconventional interiors.

bathroom furniture collection **oval**

The oval furniture series fits into the latest Scandinavian and Zen style trends. It will perfectly satisfy the needs of seekers of life in accordance with nature. The simplicity of the form and the use of oak wood refer to nature, which brings peace and harmony to the bathroom space. Furniture ideal for creating a private SPA zone, where we can rest after a whole day. Staying in the bathroom longer and treating it as a place of relaxation. An additional advantage is the use of powder coating technology, thanks to which metal elements have a hard surface, which makes them durable and resistant to use.

bathroom furniture collection **modus**

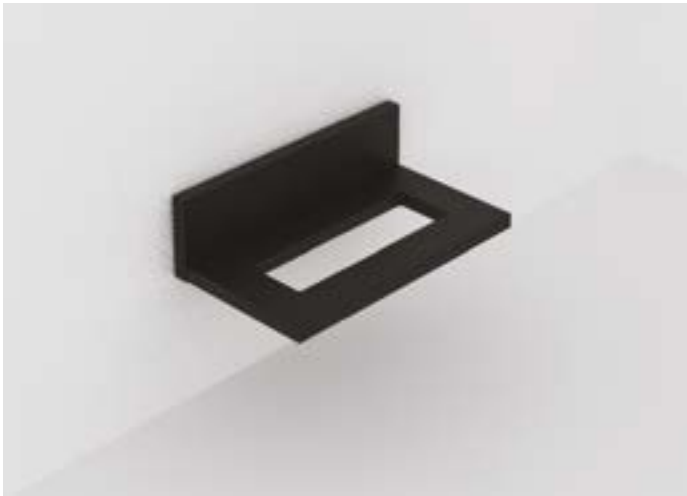

System, composed of modular cabinets with doors and drawers, niches and shelves, makes it possible to configure many different multi-component sets for furnishing bathrooms of different sizes and functions. It has authentic and innovative elements for furnishing the various parts of the bathroom. In the bath area there is a dressing table module with a mirror and space for hanging up clothes, a towel rack and shelves for storing toiletries and bath accessories. A cabinet for a washing machine has been designed for the utility area, and for the toilet area, there is a built-in concealed flush-mounted toilet bowl and a wall-hung bidet.

Offered in five color versions and in several levels of finish based on the use of durable materials - from solid wood to wood-based boards laminated with foils.

bathroom furniture collection **lotos**

A characteristic feature of the collection are frames and bases made of bent sheet metal with rounded edges to increase safety and comfort of use. The loft style is also emphasised by the steel elements of the mirror frames, hangers and handles that are powder-coated for above-average durability. The collection consists of dozens of pieces of furniture ensuring that various needs and functionalities are met in the bathroom.

Three colour versions allow the collection to be used to furnish bathrooms in different styles and arrangements.

Premium White Supermatt / Natural Oak Wood, ceramic washbasin, soft close

bathroom furniture collection **koral**

Coral is a system of blocks with proportions and design allowing for free combination of elements and construction based on various usage scenarios of bathroom space. The user enjoys great freedom in composing individual elements, their colours, choice of handles, as well as the way of finishing the edges of the fronts. The wide range of cabinets allows us to furnish bathrooms of different shapes and sizes. The flexibility of the composition allows both clients and architects to create a highly customised set.

The modular nature of the furniture is emphasised by the metal and wooden accessories, which can perform various functions depending on the configuration of the set. System also allows for the installation and aesthetic integration of the toilet and Wall-hung bidet.

Structure Light Grey / Natural Oak Wood, ceramic washbasin, soft close

bathroom furniture collection **sonet**

Collection of furniture designed in the "Soft Design" style is based on soft lines, curves and harmonious proportions. The soft colours and details made of oiled, solid wood are inspired by nature.

The high quality of materials and finishes as well as the number and usage scenario of blocks allow the client to create a space that is both usable and aesthetically attractive. Even a small bathroom can have the feel of a 'home spa', enhanced by functional accessories and mood-building elements.

bathroom furniture collection vena 2.0

Subtle curves and roundings in furniture design accompany the vena 2.0 line. The rather traditional look of the collection and, above all, its functionality and large furniture capacity make it one of the best-selling collections.

It is ideal for bathrooms for larger families and the wide range of colours available will suit the expectations of many customers.

viva 2.0.

Design:  grynasz studio

bathroom furniture collection **viva 2.0**

The simple, boxy design of viva 2.0 furniture is aimed at customers who primarily value the utilitarian character of the bathroom.

The flexible configuration of the pillar cabinet and the generous space of the furniture make it easy to store not only toiletries, but also towels or household chemicals. The various shades of wood veneer fit in with the now popular, minimalist eco style.

bathroom furniture collection **danubio 2.0**

The loft style of the danubio 2.0 collection is a blend of contemporary and post-modern elements.

Subdued colours inspired by nature are complemented by black accessories, which make the bathroom modern and elegant, while maintaining a minimalist character.

The distinctive shape of the rail forming part of the countertop and a series of shelves for easily placing your phone, watch or jewellery combine style with practicality in the bathroom.

cristal 2.0.

Design: ASP K. Chróścielewski

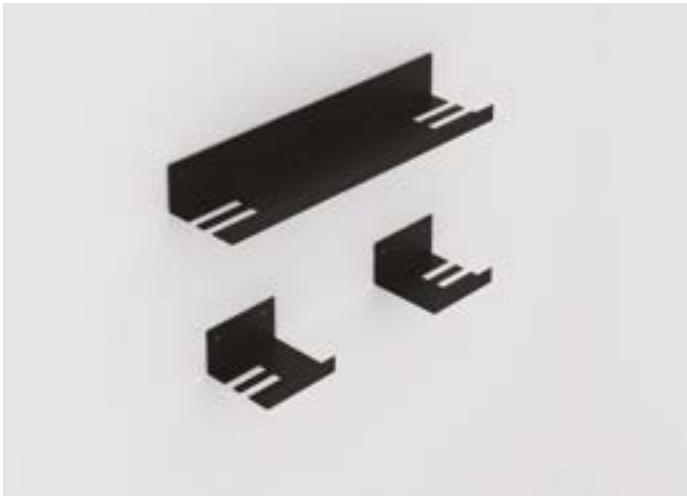

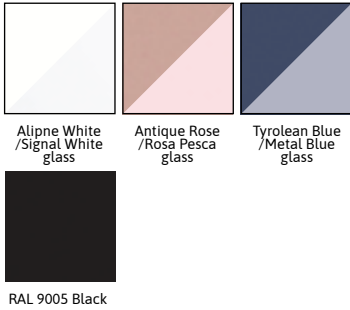

bathroom furniture collection **cristal 2.0**

Cristal 2.0 is a collection aimed at a group of audacious, trend-aware consumers. Shaped in the Art Deco style, it is distinguished by strong, expressive colours and progressive formal solutions.

These include semi-circular mirrors, open cabinets, shelves and elaborate base and frame structures. The result is a collection of elements that are visually light and optically expand the bathroom.

It has been stylistically adapted to the prevailing market trends through the use of new decors and legs made of steel profiles.

Oak Halifax White / Arctic White HG, ceramic washbasin, soft close

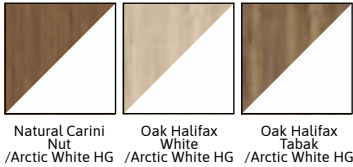

bathroom furniture
collection **fifa**

Fifa is a collection of sublime furniture modules that allow for any configuration in the bathroom. By combining white and natural wood colours, available in three shades, the furniture acquires an extraordinary elegance.

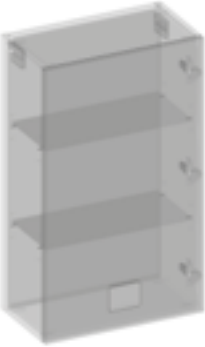

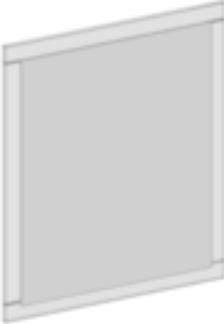

It is complemented by a simple shape and original shelf and cupboard solutions reminiscent of living room furniture. The non-aggressive style of the furniture allows for other creative solutions in the bathroom, such as complementing the décor with artwork.

bathroom furniture
collection **ambiente**

The rustic, raw shape of the furniture is perfect for both classic and modern interiors. The simplicity of the design can form the backdrop for both bold colours and accessories and a softer version of the bathroom.

Wood imitation colours will cater to nature and minimalism lovers, and the unusual shape of the washbasin will complete the distinctive composition of the whole.

bathroom furniture collection **cristal**

The cristal furniture line is distinguished by the remarkable combination of wood texture with glass in subdued shades, which perfectly matches the modern arrangement of the bathroom space.

Cristal furniture is synonymous with purity and innovation, with thoughtful and distinctive shapes blending together. The furniture is decorated in rich colours reminiscent of wood structure and traditionally in white gloss. Cristal series is also available as a double washbasin with a dedicated under-basin cabinet.
